Continents and Oceans

From space, the Earth looks blue. This is because the surface of the Earth is mostly water. The surface is about 70% ocean and only 30% land. People

have given the land and oceans names. The land is divided into seven continents. They are (in order by size): Asia, Africa, North America, South America, Europe, and Australia. The five oceans are (in order by size): the Pacific, Atlantic, Indian, Southern, and Arctic.

Label the continents and oceans.

1. How many continents are there? _____
2. How many oceans are there? _____
3. Which continent is also an island? _____
4. Which continent covers the South Pole? _____
5. Which ocean surrounds Antarctica? _____
6. Which ocean covers the North Pole? _____
7. Which ocean is east of Africa and west of Australia? _____
8. Which ocean is west of the Americas and east of Asia? _____
9. What percent of the Earth is covered by water? _____
10. What percent of the Earth is covered by land? _____
