MAP ACTIVITY BOOK

1. DO page no 5, 7,9,11 and 13 of your map activity book.

Intermediate Points

Study this compass rose.

You are familiar with the four cardinal points, but there are times when directions can not be given using simply north, south, east, or west.

You need to be able to show points that come between the four primary directions. Intermediate points give a mapmaker just such a tool.

As you can see, the new direction words are made by combining the names of the cardinal points.

Using the cardinal and intermediate points, write the locations of the numbers in the box on the left.

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____

Name : _____

What's the Weather?

Write appropriate weather words from the word bank.

sunny
partly cloudy

snowy
rainy

windy

Continents and Oceans

From space, the Earth looks blue. This is because the surface of the Earth is mostly water. The surface is about 70% ocean and only 30% land. People have given the land and oceans names. The land is divided into seven continents. They are (in order by size): Asia, Africa, North America, South America, Europe, and Australia. The five oceans are (in order by size): the Pacific, Atlantic, Indian, Southern, and Arctic.

Label the continents and oceans.

1. How many continents are there? _____
2. How many oceans are there? _____
3. Which continent is also an island? _____
4. Which continent covers the South Pole? _____
5. Which ocean surrounds Antarctica? _____
6. Which ocean covers the North Pole? _____
7. Which ocean is east of Africa and west of Australia? _____
8. Which ocean is west of the Americas and east of Asia? _____
